Contents of Volume 9

Consideration of the normality of experimental data by G. H. Fisher, 561

PERCEPTION AND PERFORMANCE

PSYCHOPHYSICS

Anchor effect limits by R. Adamson, 179

Subjective roughness and smoothness for individual judges by L. A. Stone, 347

Contextual effects for category judgments by practiced subjects by A. Parducci and Linda F. Perrett, 357

Magnitude scaling of short durations with closely spaced stimuli by J. A. Michon, 359

Scaling of sensitivity to torque by L. A. Stone and D. R. Skeen, 367

Estimates of flicker rate can be taught by R. J. Irwin, N. M. Blampied and B. Douglas, 479

Empirical scaling of common verbal phrases associated with numerical probabilities by Sarah Lichtenstein and J. R. Newman, 563

Effects of learning on judgment in the presence of discrepant anchors by B. L. Koslin, R. Pargament and S. Levine, 565

VISION

Stimulus correlates of the discrimination behavior of children by D. R. Brown and Jeanne A. Goldstein,. 177

Backward masking as a function of interstimulus distance by R. Levine, R. Didner and H. Tobenkin, 185

Sex differences in the magnitude and practice decrement of the Müller-Lyer illusion by R. E. Dewar, 345

Pattern degradation, discrimination difficulty, and quantified stimulus attributes by D. R. Brown and J. S. LoSasso, 351

Visual disappearances produced by intensity changes in luminous targets by R. J. Rose, 363

Perceptual defense and vigilance: Prediction from the Byrne Scale of Repression-Sensitization by L. D. Hutt and J. P. Anderson, 473

Resistance to distortion as a metric for pattern goodness by R. F. Cowan and W. D. Bliss, 481

A further study of alternation of normal and distorted vision by Joan E. Foley, 483

Relation between adaptation to rearrangement and the source of motor-sensory feedback by H. H. Mikaelian, 485

Perspective duration of a plane reversible figure by J. R. Price, 623

Two-flash threshold, flicker-fusion threshold, and skin conductance by M. J. Maley, 633

HEARING

Order of report and ear asymmetry in dichotic listening by Anita Cooper, K. Achenbach, P. Satz and C. M. Levy, 97

Auditory detection of narrow-band noise and tonal signals by P. T. Cornelius, J. K. Whitmore and W. A. Wilbanks, 625

SKIN SENSES

Touch thresholds as a function of onset and offset stimulation by T. G. Sticht and R. H. Gibson (Vol 8, p. 255)
Erratum, 332

Haptic judgment of the Müller-Lyer illusion by subjects of different ages by R. Over, 365

Change in tactual form discrimination error scores as a function of vibratory stimulation by G. M. Vaught, 487

Heat pain and pressure pain by Diana R. Haslam, 567

PERFORMANCE

An electromyographic investigation of motor conflict by M. S. Hoshiko and H. L. Grandstaff, 87

Effects of color, relative position, and the onset or offset of signals in a watchkeeping task by J. S. Warm, M. Loeb and E. A. Alluisi, 95

Time-shared, perceptual-motor skills during 7 days of isolation by S. Smith and T. I. Myers, 99

The unresponsive EEGs of college underachievers by Brenna H. Bry and R. S. Daniel, 103

The effect of low levels of stimulus intensity upon the orienting response by Anita Leavy and J. H. Geer, 105

Heart rate response to non-signal tones by W. G. Chase and Frances K. Graham, 181

Respiratory change and mental task gradient by J. K. Adamowicz, D. Gibson and D. Kaufman, 183

Levels of anxiety, dominant tendency and mirror-tracing performance by M. Meisels, Z. I. Youssef and M. J. Doran, 193

Activity in newborns and the sound of a human heart by Beverley Roberts and D. Campbell, 339

Time of day effects on performance in a range of tasks by M. J. F. Blake, 349

Two-flash threshold, skin conductance and skin potential by M. J. Maley, 361

Heart rate change under variable auditory and mental task conditions by D. Kaufman, D. Gibson and J. K. Adamowicz, 471

The effects of stress on Stroop color-word performance by S. H. Hochman, 475

The relationship between pupil size and recognition threshold by L. D. Hutt and J. P. Anderson, 477

Task specific decrements in the duration of attention by B. T. Leckart, 559

Correlations between pupil size and the semantic differential: An experimental paradigm and pilot study by B. E. Collins, Phoebe C. Ellsworth and R. L. Helmreich, 627
Motivation and performance in skill and chance defined situations by R. A. Baron, 631
High and low anxiety and GSR adaptation by R. Fried, Miriam Friedman and L. Welch, 635

REACTION TIME

Choice reaction time and behavioral hypotheses: The effects of learning sequential redundancies by I. H. Bernstein and C. Reese, 189
Translation processes and aging by J. R. Simon, 553
Decreased reaction time produced by discordant warning and reaction stimuli by L. Karlin and A. M. Mordkoff, 555
Alternation and repetition reaction times under three schedules of event sequencing by S. M. Moss, S. Engel and Dorothy Faberman, 557

HUMAN LEARNING AND THINKING

CONDITIONING

Eyelid conditioning at low US intensities and eyeblink threshold by T. B. Leonard, III, G. A. Kimble and L. C. Perlmuter, 187
Inter-effector influences in operant autonomic conditioning by H. D. Kimmel and Ellen Kimmel, 191
Relationship of electrodermal lability and reflex sensitivity to differential conditioning by A. Crider and B. Tursky, 225
CS-UCS interval in differential eyelid conditioning with retardates by J. T. Johnson and L. W. Heal, 327
A simple eyelid conditioning masking task and its effect on differential conditioning by L. E. Ross, Susan M. Wilcox and Melanie J. Mayer, 333
Conditional emotional response with humans: The effect of a variable interstimulus interval using a trace conditioning paradigm by D. A. Sachs and J. G. May, Jr., 343
Verbal conditioning: Awareness and subject set by R. I. Lanyon, 457
Warning signal as a component of a compound stimulus in human eyelid conditioning by J. Berman, C. D. Williams and N. Schneiderman, 541

DISCRIMINATION LEARNING

Vibrotactile learning by D. D. Diespecker, 107
The effect of redundant patterns on retardate discrimination learning by L. M. Hyman, 195
The relative crossmodal transfer of a form discrimination by R. Eastman, 197
Verbalizing and writing as auxiliary responses during discrimination learning by G. L. O'Brien and S. L. Carmean, 335
Cross-modal transfer of oddity learning by D. J. Tyrrell, 353

VERBAL LEARNING

A small error in Thurstone's length-difficulty function by W. Bogartz, 109
S-R and R-S acquisition as a function of meaningfulness by J. E. Harrigan and J. A. Modrick, 199
Effect of degree and location of intra-pair similarity upon paired-associate acquisition by C. P. Thompson and D. E. Fritzler, 201
Children's paired associate learning of verbal and pictorial material by R. E. Klein, G. A. Hale, L. K. Miller and H. W. Stevenson, 203
Idiosyncratic and normative mediators in paired associate learning by C. M. Levy and Dorothy Nevill, 355
Serial position, primacy and the von Restorff isolation effect by L. R. Goulet, R. N. Bone and D. D. Barker, 529
Intralist similarity, order of presentation and color in children's paired-associate learning by W. Otto, 531
Acquisition of paired associates as a function of interpair interval by D. C. Rimm and Barbara Biggs, 611

REINFORCEMENT

The effect of short delays in punishment on an immediately rewarded response in humans by M. D. Vogel-Sprott, 83
Some functions of collateral behavior by Diane D. Edwards and Gail A. Dart, 101
The effects of long intertrial intervals in probability learning by A. S. Reber and T. A. Nosanchuk, 111
The effects of small monetary incentive upon human lever pressing rates by P. G. Swingle and D. Moors, 205
Cooperative behavior in preschool children by S. Joyce Brotsky and Karla Thomas, 337
Incentive effects and social class in children's probability and discrimination learning by G. M. Olson, D. J. Bibelheimer and H. W. Stevenson, 459

MEMORY

Semantic similarity and the A-B, C-D paradigm in STM by H. C. A. Dale, 79
The retention of responses to individual stimuli and stimulus classes by W. E. Montague and A. J. Wearing, 81
Criterion shifts and the determination of the memory operating characteristic by K. L. Gibson, 207
Memory loss with age: A test of two strategies for its retardation by Mary W. Laurence, 209
Word length and rarity in recognition memory by A. I. Schulman, 211
The conceptual similarity effect in free recall by J. C. Koeppel and R. S. Beecroft, 213
Ageing, recognition and partial learning by J. Hartley and I. S. Marshall, 215

Category names as cues for the recall of category instances by G. Wood, 323
Repetition within and across missing scan trials by H. Buschke and R. Lenon, 325
An empirical comparison of two measures of intertrial organization in free recall by C. R. Puff and S. P. Hyson, 329
The effect of contextual stimuli on retroactive inhibition by Wilma Gottlieb and M. S. Lindauer, 331
RI and PI after R-S recall of overlearned material by M. S. Lindauer, 341
Verbal context as a retrieval cue in long-term memory for words by M. J. A. Howe, 453
Conceptual cueing and the recall of order in threaded lists by G. J. Harrison, 455
A comment on acoustic data and recognition in short-term memory by D. Marcer, 464
Further data on degree of learning and transfer of training by L. R. Goulet, R. A. Meltzer and Kathleen K. O'Shaunessy, 469
Recall of paired-associates as a function of their associability by A. J. Wearing, C. B. Walker and W. E. Montague, 533
Recall of individual CCC trigrams over short intervals of time as a function of mode of presentation by R. K. Cooley and J. A. McNulty, 543
Intra-list interference in single trial short-term memory by D. A. Schumsky, A. F. Grasha, E. O. Eimer and J. Trinder, 545
Evidence of a connotative dimension in a short-term memory as a function of retention interval by M. T. Turvey, 547
Short-term recognition memory for spatially isolated items by R. E. Morin, D. V. DeRosa and R. Ulm, 617
Recognition of faces: I. An exploratory study by J. Hochberg and Ruth Ellen Galper, 619
Recall of paired-associate items as a function of interpolated pairs of different types by W. J. Thomson, 629

VERBAL PROCESSES

The test-retest reliability of free associations following continued associations by S. Joyce Brotsky and Marigold L. Linton, 85
Age changes in verbal satiation by S. Wapner and G. Rand, 93
Forewarning, meaning, and semantic decision latency by N. L. Rohrman and P. B. Gough, 217
A noun scale semantic differential by W. Bogartz and B. Sippola, 233
The A-B, B-C_r, A-C mediation paradigm: Recall of A-B following varying numbers of trials of A-C learning by R. H. Hopkins and R. W. Schulz, 235
Word associations to compound stimuli under two presentational methods by Barbara S. Musgrave and Jean Carl Cohen, 315
Natural language mediation: A source of interference with extra-experimental interference by W. E. Montague and A. J. Wearing, 317
Association time, commonality, and the test-retest reliability of free association responses by S. Joyce Brotsky, D. C. Butler and Marigold L. Linton, 319
The evaluation of strings in an artificial logical language by W. J. Krossner, 321
Differential repetition of common versus uncommon word associations by J. R. Braun, A. Constantini, J. Link and Barbara J. Ehmer, 463
Speed of responding to mixed language signals by E. C. Dalrymple-Alford and A. Aamiry, 535
Affective and informational meaning and their relationship to familiarization by Janet Moursund, 615

PROBLEM SOLVING AND DECISION MAKING

Operating characteristics and realism of certainty estimates by Z. J. Ulehla, K. B. Little and T. C. Weyl, 77
Schematic concept formation with linguaform patterns by Joan Hollier and S. H. Evans, 89
A test of Luce's two-state decision rule by W. A. Wickelgren, 91
Set and the encoding of visual stimuli by Eleanor Sexton and J. P. McLaughlin, 219
Schematic concept formation: Demonstration in a free sorting task by S. H. Evans and M. D. Arnoult, 221
The relative influence of probabilities and payoffs upon perceived risk of a gamble by P. Slovic, 223
Developmental changes in children's concepts of probability by G. A. Hale, L. K. Miller and H. W. Stevenson, 229
The effect of motivational arousal on information processing in the convergent word identification task by P. Suedfeld and Nancy Goeller, 231
Concept formation and art: Basic experiment and controls by R. D. Walk, 237
A questionnaire approach to transitivity in children by R. D. Odom and R. C. Coon, 305
Conceptual transfer in preschool children as a function of prior training by Ann M. Clarke and G. M. Cooper, 307
Data sequences and subjective sampling distributions by L. R. Beach and J. B. Olson, 309
Estimation of the number of hypotheses in a concept learning task by H. Wells and J. Forest, 311
Supplementary information in schematic concept formation by Jean F. Tracy and S. H. Evans, 313
Some properties of a three-part learning set task by M. Goldstein and D. A. Easterly, 451
Differentiation of haptic exploration in two age groups by L. Cirillo, S. Wapner and G. Rand, 467
Near optimal processing of information during concept identification by M. J. Klingsporn, C. R. Peters, M. P. Enns and R. Iles, 537
Effects of overtraining on the establishment of mental set in anagram solving by J. F. Juola and B. R. Hergenhahn, 539

Effects of pattern complexity in solving pattern recognition and pattern production problems by G. A. Davis and Alice J. Train, 549
Facilitation of concept learning by a "simultaneous contrast" procedure by H. Wells, 609
Effects of independent outcome-values of past events upon subsequent choices by F. W. Irwin and Marsha Joan Metzger, 613
Exploration of upper limits of task complexity in concept identification of males and females in individual and social conditions by A. Wolfgang, 621

SOCIAL PROCESSES
Similarity and cooperation received as determinants of cooperation rendered by H. Kaufmann, 73
Perceived similarity and liking as functions of manipulated similarity and subjective social favorability by H. Kaufmann and Linda Zener, 75
Conceptual structure and social choice: A replication under modified conditions by S. Streufert, R. G. Bushinsky and C. H. Castore, 227
The propensity to attack others as a function of the distribution of resources in a three person game by S. G. Cole and J. L. Phillips, 239
The effects of interpersonal affect on errors made when reconstructing a stimulus display by R. Kleck, 449
Authoritarianism and exposure to another's behavior in a risk-taking situation by R. A. Baron and S. J. Arenson, 461
Classical conditioning of attitudes as a function of source consensus by R. F. Weiss, Joyce Jettinghoff Weiss and L. J. Chalupa, 465
Cognitive bias in the perception of interpersonal relations by R. H. Rittle and N. B. Cottrell, 551

PHYSIOLOGICAL PSYCHOLOGY

Prenatal maternal conditioned fear and subsequent ulcer-proneness in the rat by R. W. Bell, G. H. Hendry and C. E. Miller, 269
The effect of deep hypothermia on retention and motivation in the rat by C. L. Richman, Genevieve Parrett, B. Black-Schaffer and R. J. Senter, 275

ELECTRICAL RECORDING
Visually evoked cortical potentials from different cortical regions in humans by P. M. Groves and R. G. Eason, 19
Recording of skin resistance in the unrestrained rat: A possible measurement artifact by G. Walters and Carole Tullis, 27
"Novelty" cells in association cortex of cat by L. A. Bettinger, J. L. Davis, Mary B. Meikle, H. Birch, R. Kopp, H. E. Smith and R. F. Thompson, 421

BRAIN LESIONS
Shock-induced fighting in septal-lesioned rats by A. B. Wetzel, R. L. Conner and S. Levine, 133
Neonatal brain damage and intelligence in rats by K. J. Hayes, 279
Size-discrimination deficit in primates with inferotemporal lesions by Linda Olson, R. W. Leary and R. F. Thompson, 511
Role of the optic tectum and general cortex in reptilian vision by W. N. Hayes and D. R. Hertzler, 521
Caudate nucleus lesions and maternal behavior in the rat by R. J. Kirkby, 601

ELECTROCONVULSIVE SHOCK
A confounding of conditioned suppression in passive avoidance: ECS effects by A. A. Spevack and M. D. Suboski, 23
Permanence of amnesia after single posttrial treatments of Metrazol or electroconvulsive shock by J. P. Kincaid, 59
A temporally graded ECS function following one-trial learning by A. A. Spevack, R. G. Rabedeau and Marika E. Spevack, 153
Recovery from ECS-produced amnesia following a reminder by R. J. Koppenaal, Eleanor Jagoda and J. A. F. Cruce, 293

INTRACRANIAL STIMULATION
Self-stimulation in the rock squirrel as a function of current direction by J. E. King and Mary C. Wetzel, 33
Some monophasic self-stimulation loci in the rock squirrel and rat by Mary C. Wetzel, J. E. King and Louise E. Nowicki, 35
Effects of septal stimulation in rats on heart rate and galvanic skin response by T. L. Holdstock, 37
Intracranial stimulation and natural reward: Differential effects of trial spacing by C. R. Gallistel, 167
Lateral hypothalamic reward decreased by intragastric feeding: Self-determined "threshold" technique by G. B. Mount and B. G. Hoebel, 265
Intraoral self injection: I. Effects of delay of reinforcement on resistance to extinction and implications for self-stimulation by J. Panksepp and J. A. Trowill, 405
Intraoral self injection: II. The simulation of self-stimulation phenomena with a conventional reward by J. Panksepp and J. A. Trowill, 407
Consolidation of the neural trace in memory: ECS-produced retrograde amnesia is not an artifact of conditioning by R. A. King, 409

HORMONAL EFFECTS
Somatotrophin effects on fetal brain growth: Failure to replicate by J. H. Gill, L. D. Reid, J. R. McClellan and P. B. Porter, 289

Preoperative saccharine experience and postoperative fluid preference in adrenalectomized rats by D. L. Grimsley and L. E. Fisher, Jr., 299
Sodium thirst in nephrectomized and nephrectomized-anosmic rats by W. B. Vance, 301
Shuttle box avoidance learning and epinephrine by C. N. Stewart and K. H. Brookshire, 419

DRUG AND CHEMICAL EFFECTS

Mediation of shock and drug-produced effects on avoidance responding by L. K. Martin, Barbara J. Powell and D. K. Kamano, 3
Magnesium pemoline: Facilitation of instrumental avoidance learning by A. S. Kulkarni, 39
The effects of alcohol on serial verbal learning in chronic alcoholics by T. Storm and W. K. Caird, 43
Avoidance learning in fish after fear conditioning under chloretone by Linda E. Anderson, 45
Effects of phenobarbital sodium on spontaneous motor activity by R. C. Niemeyer and S. Siegel, 47
Preshock, scopolamine, and genetic strain as determinents of the effects of punishment by D. C. Anderson and S. Packham, 49
Facilitation of maze acquistion by mice with tricyanoaminopropene (TCAP) given during early postnatal development by W. B. Essman, 51
Spreading cortical depression blockage of seizures produced by electroconvulsive shock by R. W. Thompson and J. E. Miller, 69
Effects of d-amphetamine and pentobarbital on vigilance in the rat by Barbara S. Uehling and E. R. Venator, 113
Effects of chlorpromazine and atropine on the maintenance of Hurwitz avoidance by H. L. Chipman, Jr., 115
Amobarbital sodium and instrumental performance changes following reward reduction by A. J. Rosen D. H. Glass and J. R. Ison, 129
Magnesium pemoline: Effect on acquisition and retention of discriminated avoidance behavior by Y. Filby, S. Szara and B. Salzman, 131
Pemoline and magnesium hydroxide: Memory consolidation following acquisition trials by N. Plotnikoff, 141
Effects of scopolamine on a "go-no go" avoidance task in rats by B. Meyers and A. H. Koenig, 143
Failure to transfer a learned response in rats using a brain extract containing RNA by R. F. Hoffmann, C. N. Stewart and H. N. Bhagavan, 151
Chemical suppression of fighting in the Siamese fighting fish by D. H. Thor, M. H. Weisman and S. C. Boshka, 161
Magnesium pemoline: Enhancement of spontaneous motor activity by J. J. Boitano and Joan C. Boitano, 295
Water intake of hyposalemic anosmic rats by W. B. Vance, 297
Within-strain facilitation and disruption of avoidance learning by picrotoxin by D. J. Zerbolio, Jr., 411
RNA induced enhancement of wire climbing in the rat by R. G. Gibby and D. G. Crough, 413
Conditioned cardiac acceleration under spreading cortical depression by Linda Burgoyne, R. Pote and N. Freedman, 417
Differential rabbit eyelid conditioning: Effect of magnesium pemoline by P. W. Frey and T. J. Misfeldt, 425
The effect of d-amphetamine on chained fixed-interval schedule behavior by W. M. Steinman, 493
Effects of cortical spreading depression and ether following one-trial discriminated avoidance learning by M. Black, M. D. Suboski and N. L. Freedman, 597
Suppression of drinking by parenteral administration of carbachol by K. A. Khavari, 599
The effect of strychnine sulfate on maze learning as a function of task difficulty by D. L. Coker and D. W. Abbott, 607

RADIATION EFFECTS

Trace conditioning with X-rays as an aversive stimulus by J. C. Smith and D. L. Roll, 11
Sex differences in the activity wheel and open field as a function of fetal x-irradiation by Joan C. Martin, 415
Radiation produced avoidance to morphine by P. T. Mountjoy and A. E. Roberts, 427
Effects of low intensity UHF radio fields as a function of frequency by Susan F. Korbel and H. L. Fine, 527

ANIMAL BEHAVIOR

Effects of fear upon exploratory behavior by D. Lester, 117
Exploratory behavior of dominant and submissive rats by D. Lester, 285

EMOTIONAL BEHAVIOR

The effects of infantile experience on later emotionality and sensory discrimination by J. G. May, 29
Effects of maternal deprivation on later behavior in two inbred strains of mice by T. G. Newell, 119
Emotionality in two strains of mice as a function of maternal handling by R. C. LaBarba, 121
Open-field behavior in mice: Effect of test illumination by W. E. McReynolds, M. W. Weir and J. D. DeFries, 277
Effects of environmental complexity on emotionality and avoidance performance of Tryon S1 and S3 strains by Barbara J. Powell and Madge Leach, 287

MOTIVATED BEHAVIOR

Abnormal sexual behaviors in male A^y-bearing mice by J. D. Hawkins, 31
Chew-through behavior in rats by W. E. Wilsoncroft, 41
Self-maintenance of intoxication in the rat: A modified

replication by R. J. Senter and J. D. Sinclair, 291
Lick rates and topographies as taxonomic criteria in southwestern rodents by R. Boice, 431
Drinking in response to salt injections at different times of day by K. Oatley, 439
Effects of hunger level during sugar and sugar-saccharin consumption on later preferences by P. J. Capretta, 441
Effects of deprivation level on alternation and preference behavior by J. R. Ison, 443
Saccharine and H_2O consumption as a function of H_2O deprivation by A. Strouthes and D. J. Navarick, 523
Effects of adaptation and amount of reward on air drinking behavior by F. R. Treichler and A. Weinstein, 525
Learned and unlearned components of the rat's adaptation to water deprivation by G. I. Hatton and C. R. Almli, 583

VISION

The effects of outward-pointing arrowheads on the Mueller-Lyer illusion in pigeons by R. W. Malott, Marilyn Kay Malott and J. Pokrzywinski, 55
Vision in chicks with distorted visual fields by N. Moray and Anne Jordan, 303
Generalization gradients along wavelength and angularity dimensions in pigeons following two differential training procedures by M. R. Baron and C. T. Vacek, 423
The synthetic-analytic character of color vision in the pigeon by J. Cohen, 429
Comparison of tactual and visual cues on the visual cliff by H. R. Schiffman, B. Beer, A. Koenig and D. E. Clody, 437
Laterally displaced pecking in monocularly viewing pigeons: A possible factor in interocular mirror-image reversal by I. L. Beale and M. C. Corballis, 603

CONDITIONING

Effects of pre-training exposure to the CS on conditioned suppression by R. B. May, C. W. Tolman and M. G. Schoenfeldt, 61
A traditional demonstration of the active properties of Pavlovian inhibition using differential CER by L. J. Hammond, 65
Classical conditioning and latent inhibition in the white rat by Carol Chacto and R. E. Lubow, 135
Rabbit eyelid conditioning as a function of the intertrial interval by P. W. Frey and T. J. Misfeldt, 137
Heart rate and nictitating membrane classical discrimination conditioning in rabbits under delay versus trace procedures by A. L. Meredith and N. Schneiderman, 139
The effects of an interpolated ITI stimulus on classical conditioning of the nictitating membrane response of the rabbit by N. M. Kettlewell and J. D. Papsdorf, 257
Classical discrimination conditioning of heart rate and bar-press suppression in the rat by Jan Parrish, 267
The Sheffield omission training procedure applied to the conditioning of the licking response in rats by R. L. Patten and J. W. Rudy (Vol. 8, p. 463)
Erratum, 374
The ontogeny of classical conditioning in the neonatal rat with varied CS-UCS intervals by P. H. Gray, A. E. Yates and Karen McNeal, 587

DISCRIMINATION LEARNING

The scaling of relative task difficulty across spatial, brightness, and form successive discrimination refersal (SDR) problems with Capuchin monkeys by R. L. Gossette and H. R. Brown, 1
Generalization of responses to intermediate size by cats and monkeys by J. M. Warren and H. C. Ebel, 5
Interstimulus interval functions in different response systems during classical discrimination conditioning of rabbits by D. H. Vandercar and N. Schneiderman, 9
On a conjecture of Bush and Mosteller by J. Van Laer and E. K. Van Laer, 13
Generalization along the dimension of length of line without explicit discrimination training: A replication by R. W. Malott, Marilyn Kay Malott and J. G. Svinicki, 17
Acquisition of stimulus matching without the use of non-matching stimuli by R. W. Malott, Marilyn Kay Malott and J. Svinicki, 21
Concurrent stimulus matching and color discrimination by R. W. Malott, Marilyn Kay Malott, J. Pokrzywinski and D. Sobol, 53
Effects of stimulus rotation on discrimination learning by monkeys by L. H. Hicks, 57
Proactive inhibition in rats after prior partial reversal: A critique of the spontaneous recovery hypothesis by S. F. Maier, T. A. Allaway and H. Gleitman, 63
The overlearning reversal effect: A function of the non-monotonicity of S- during discriminative training by G. B. Biederman (Vol. 7, p. 385)
Comment on Biederman by W. K. Honig, 67
Reply to Honig by G. B. Biederman, 68
Successive reversals of a position response in isopods by M. D. Harless, 123
Analysis of discrimination reversal in the rat by K. A. Khavari and G. A. Heise, 271
Effects of rewarded and nonrewarded prereversal training on discrimination reversal learning in rats by D. A. Stevens and L. D. Fechter, 369
Selective attention in imprinting by G. Marsh and G. Walz, 373
Stimulus control in errorless discrimination by G. B. Biederman, 375
Visual discrimination behavior in galago and owl monkey by Annette Ehrlich and W. H. Calvin, 509
Enhanced stimulus generalization of a food reinforced response to a CS for water by T. Hyde and M. A. Trapold, 513

An olfactory discrimination apparatus: Modification of the basic "wind-tunnel" design by J. Braun, B. Wermuth and L. Haberly, 515
Contour separation and orientation in shape discrimination by rats by P. C. Dodwell and R. R. Niemi, 519
Interocular transfer following simultaneous discrimination of mirror-image stimuli by M. C. Corballis and I. L. Beale, 605

MAZE BEHAVIOR

Response by the calf to stimulus change by K. L. Beauchamp, A. Chapman and C. Grebing, 125
A test for dominance of cues during maze learning by toads by J. T. Williams, Jr., 259
Training schedule in a two-turn task in a temporal circular maze by C. Chen, 273
Patterned running as a function of the sequence of trial administration by J. H. McHose, 281
The sweet smell of success: Apparent double alternation in the rat by H. W. Ludvigson and D. Sytsma, 283
The reversal index and ageing by M. A. Jeeves, 371
Spontaneous alternation and learning in rats by D. Lester, 575
Straight alley acquisition drive and ad lib test performance by W. Timberlake, 585
A reinvestigation of cognitive maps by H. F. Young, E. R. Greenberg, W. Paton and J. A. Jane, 589
The influence of olfactory cues on exploratory behavior by M. S. Halliday, 595

AVOIDANCE AND PUNISHMENT

Punishment continuity and self-punitive behavior by R. S. Beecroft, Bonnie G. Fisher and Sally A. Bouska, 127
The effect of temporal factors on the maintenance of discriminated avoidance by H. L. Chipman, Jr., 145
Active avoidance learning in hamsters by M. Babbini and W. M. Davis, 149
Discriminated avoidance conditioning as a function of duration of intertrial interval and type of shock by G. B. Biederman, 155
Acquisition of avoidance running in the rat by R. S. Beecroft and Sally A. Bouska, 163
Manipulations of intensity of electric shock in a multiple punishment schedule by Diane D. Edwards and Gail Dart, 251
Conditioned inhibition of conditioned suppression by D. P. Hendry, 261
Discriminated avoidance conditioning: Stimulus function in shaping and training by G. B. Biederman, 263
Further comment: Nonincremental avoidance behavior by R. L. Isaacson and D. S. Olton, 445
The effects of age and CS complexity on the acquisition of an avoidance response in rats by Karen Loving Porter and R. W. Thompson, 447
A reverse Kamin effect in the escape and avoidance conditioning of newly hatched chicks by P. H. Gray, A. T. Yates, D. R. Vandiver and Karen Kirwan, 507
A test of the independence of the approach and avoidance gradients by W. K. Richardson and J. W. Donahoe, 569
Selective suppression of consummatory behavior as a function of duration of punishment training by D. K. Kamano and D. J. Arp, 571
Self-punitive behavior: Effects of percentage of punishment on extinction of escape and avoidance responses by L. Bender and K. B. Melvin, 573
A failure to obtain "Hudson's effect" following one-trial discriminated avoidance training by M. D. Suboski, R. T. Greenner and A. A. Spevack, 577
Retractable-bar avoidance by E. R. Christophersen and M. R. Denny, 579
Cardiac conditioned responses in avoidance and yoked-control rats by R. E. Miller, J. H. Banks, Jr., and W. F. Caul, 581

REINFORCEMENT

The effects of nonreinforcement on subsequent running behavior under continuous reinforcement by D. Robbins and S. Weinstock, 7
Intertrial reinforcement as interference with consolidation by H. Lobb and D. Runcie, 25
Reward size effects in the double runway by L. Dachowski, 157
Acquisition and extinction as a function of magnitude and percentage of reinforcement by M. H. Marx, 159
Reward schedule effects at a relatively long intertrial interval by E. J. Capaldi and R. Minkoff, 169
Effects of severely limited acquisition training and pretraining on the partial reinforcement effect by E. J. Capaldi and Elizabeth A. Deutsch, 171
Contrast effects in instrumental differential conditioning with a non-nutritive liquid reinforcement by Betty B. Rossman and M. J. Homzie, 173
The effect of delayed reinforcement on DRL performance by D. Meltzer and J. A. Brahlek, 175
A few acquisition trials: Effects of magnitude and percent reward by A. M. Padilla, 241
Intersession delay and avoidance extinction to training and generalization stimuli by M. Gabriel, 243
Response sequences in rats and pigeons by Diane D. Edwards, Dannalee Dubiner and F. Crow, 245
A trans-response effect of partial reinforcement by W. W. Wenrich, G. E. Eckman, M. J. Moore and D. F. Houston, 247
Pressurized air: The negative factor by A. J. Ray, Jr., and K. B. Hranchuk, 249
The "frustration effect" in operant studies: A necessary control procedure by H. D. Hamm and J. Zimmerman, 253
A failure to reinforce instrumental behavior by terminating a stimulus that had been paired with shock by R. C. Bolles and Abigail V. Tuttle, 255
Delay of reward as a secondary reinforcer by E. L. Wike, Carole A. Cour and Sara S. Sheldon, 377
Chained behavior as a function of prior exposure to presence and absence of a reinforcing event by

S. R. Scobie, A. Kaufman and A. Baron, 379
Postconsummatory delay and goal box confinement by P. J. Mikulka, J. R. Vogel and N. E. Spear, 381
VR 2 interresponse times by R. S. Beecroft and B. M. Kruger, 383
Magnitude of G_1 reward and the frustration effect in a between subjects design by R. A. Krippner, R. C. Endsley and R. S. Tacker, 385
Sequential effects in fixed-ratio postreinforcement pause duration by D. E. Mintz, D. J. Mourer and Miriam Gofseyeff, 387
The effects of long-term training with delayed reward and delay-box confinement on instrumental performance by E. L. Wike and J. McWilliams, 389
The development of stimulus control in a three-member chained schedule by R. W. Switalski and D. R. Thomas, 391
Variable DRL by F. A. Logan, 393
The effect of varied reinforcement training on behavior following incentive reduction by S. F. Davis and A. J. North, 395
Magnitude of G_2 reward and the frustration effect in a between-subjects design by R. A. Krippner, R. C. Endsley and R. S. Tacker, 399
The effect of varying numbers of rewarded and non-rewarded trials on subsequent performance in a straight runway by J. W. Cotton, W. F. Hill and K. N. Clayton, 489
Prefeeding and the apparent frustration effect by E. D. Kemble and K. N. Clayton, 491
Stimulus properties of varied food concentrations by W. F. Vitulli, 495
Consistent delay of reward vs consistent nonreward in the alley by J. V. Couch and L. R. Stanley, 497
Performance following rewarded and nonrewarded trials at 12-min and 20-sec intertrial intervals by C. T. Surridge, 501

EXTINCTION

Occurrence of the partial reinforcement extinction effect after only one NRNR sequence of trials by J. Bowen and G. McCain, 15
Extinction performance as a function of R-R transitions with abbreviated training by J. E. Spivey, D. T. Hess and J. F. Aponte, 147
Resistance to extinction as a function of amount of reinforcement and reinforcement schedule by C. I. Brooks and R. H. Dufort, 165
The frustration vigor effect (FVE) as a function of number of rewarded barpress trials by M. H. Marx and Jo W. Tombaugh (Vol. 8, p. 105)
Erratum, 332
Increased resistance to extinction as a function of the opportunity to retrace in the runway by M. H. Marx, 397
Extinction as a function of number of reinforced trials and squad composition by J. H. McHose, L. L. Jacoby and P. A. Meyer, 401
The effect of degree and type of training upon extinction of a response chain in pigeons by K. W. Fischer, 403
Resistance to extinction following shifts in reward magnitude by R. W. Black and S. Feig, 499
Acquisition and extinction as a function of controlled interval (discrete-trial) or controlled session (free-response) programming by J. McLean and M. H. Marx, 503
Mirror image as a reinforcer in Siamese Fighting Fish: A repetition with additional controls by S. R. Goldstein (Vol. 7, p. 331)
Reply to Goldstein by R. Baenninger (Vol. 8, p. 488)
Reply to Baenninger by S. R. Goldstein, 504
Unrewarded trials and resistance to extinction of a bar-pressing response by J. Dutch and D. Quartermain, 505
The role of response effort in extinction: Much ado about nothing by T. Stachnik, 517
Reinforcement locus and free-operant extinction by J. J. Porter, 593

SOCIAL BEHAVIOR

Dominance in monkeys: Early rearing and home environment by W. F. Angermeier, J. B. Phelps, S. Murray and H. H. Reynolds, 433
Dominance hierarchies in monkeys by W. F. Angermeier, J. B. Phelps, M. Oreste, H. Davis and H. H. Reynolds, 435
Rearing conditions and sociability in *Lebistes reticulatus* by G. A. Pinckney and Linda E. Anderson, 591
